

# PAR56 STANDARD

GET TO IT'S  
WEB PAGE

The PAR56 lamp is the ideal solution to replace your 300W incandescent lamp. This universal lamp is compatible with most projectors on the market, and represents excellent value for money.

## REPLACEMENT

Compatible with most market niches

Suitable for replacements

Straightforward, safe installation

### Comes in 2 versions :

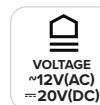

**COLOUR LIGHTING with remote control :** To add splashes of colour to your pool, this lamp has 11 colours and 5 automatic programs. The exclusive SEAMAID optic lens brings out a harmonious blend of colours.

> Includes a memory of the last program used and a Reset function.

**WHITE LIGHTING :** Ideal as a replacement for 300W incandescent lamps, this lamp spreads light evenly around pools up to 10x5 meters, without dazzling bathers.

### Installation recommendations :

These pool lamps must be connected to a two-coil insulated safety transformer that is at least 20% more powerful than the total absorbed power. When using for the first time, it is necessary to pair the remote control provided with the coloured lamp. As an optional extra, you may install a radio switch between the lamp (or group of lamps) and the transformer in order to remotely turn the device on and off, or synchronise multiple devices (see page 16).

REF	Ø SIZE	COLOUR	LUMINOUS FLUX	NUMBER OF LEDS	POWER
502839	178mm	RGB with remote control	510lm	90	16 WATTS
502815	178mm	WHITE	1650lm	60	13,5 WATTS
