ROBOTIC CLEANERS

POWERFUL
AND LIGHT

RV 4400

VORTEX™ PRO

1 POWERFUL AND CONSTANT SUCTION

Zodiac[®] engineers have created the first **cyclone suction pool cleaners**. The high-power vortex inside the filter keeps debris in suspension, thereby preventing the filter from blocking and **maintaining cleaning performance**.

2 LIGHTER WHEN REMOVING FROM WATER

Thanks to **Lift System** technology, it's now easy to remove your cleaner from the pool. A powerful waterjet is activated when the cleaner is removed from the water, making it **lighter to carry**.

3 EASY LARGE-CAPACITY FILTER CLEANING

Easily accessed from the top of the robot, the large capacity rigid filter is **easy to clean**.
